

To our Customers

Milan, 28th July 2011

Object: Acquisition Sika-Technokolla

Dear Customer,

As You may be aware, in a phase of consolidation and strengthening of its position, the multinational Group Sika AG from Switzerland, world leader in the production of chemical products for the building sector for more than 100 Years, has acquired the Company Technokolla SpA from Sassuolo (MO).

As a matter of fact, the synergy between Sika and Technokolla is aimed to provide the market with new business opportunities and innovative solutions. The evaluation of the current economic situation, particularly the one of the building sector, should be an incentive to take advantage of all the opportunities that Sika and Technokolla will be able to catch and share with their own clients and commercial partners.

In order to achieve this purpose, we are pleased to inform You that we will not have any change, You will keep dealing with the same area managers/agents, together with the usual sales conditions, technical support and service from Technokolla.

We take the occasion to invite You to get in touch with Your usual Technokolla contact for any information You might require.

Remaining at Your disposal for any need or clarification.

Yours Sincerely

General Manager
Sika Italia S.p.A.

Eddy Bonucelli
Sales Director
Technokolla S.p.A.
